VTS EXAMINATION 2016 -17

PRELIMINARY QUESTION PAPER

| ı | 7 |
|---|---|
| ı | |

| | Score : 200 |
|--------------|--------------------|
| Register No: | Time: 2 hrs |

General Instructions

- 1. Candidates are supplied with an OMR Answer Sheet.
- 2. Answer the questions in the OMR Sheet by shading the appropriate bubble.
- 3. Shade the bubbles with black ball point pen.
- 4. Each question carries four marks.

Class: III

5. Use the space provided in the last page for rough work.

I. Read the following passage and answer the questions

Do you know the history of a pencil? The pencil's history is said to date back to 1564. People believe that once after a hurricane a lot of trees were uprooted in Britain. A farmer found a storage black substance under a tree. The farmer discovered that this substance would not wash off. He and other farmers began using the substance to mark their sheep. The substance they were using was called graphite. It is graphite inside the wooden casings of the pencils that we use today.

Pencils are identified by the numbers 1, 2 and 3. A number 1 pencil is soft and makes a very dark mark without applying much pressure. Teachers often request that students use a number 2 pencil. These pencils are more medium-soft. A number 3 pencil is very hard but not as dark. It's good for tracing. Whether we are using 1, 2 or 3 it is difficult to imagine a life without pencils.

- 1. According to the passage, what is inside the wooden pencil casings we use today?
 - A. Lead

B. Graphite

C. Lead and clay

D. Graphite and clay

- 2. What do the different numbers on pencils mean?
 - A. How large the pencil is

B. How hard the graphite is

C. How much graphite is in the pencil

D. How hard the pencil wood is

| 3. | Which pencil is likely to make darker lines? | | |
|-----|--|-----------------------|--|
| | A. Number 1 | B. Number 2 | |
| | C. Number 3 | D. Number 4 | |
